

The meeting discussed Ashrita's progress on image storage setup, her need for assistance with SSHing, and the team's plan to meet in person to discuss database structure and project details.

- Ashrita has been researching how to set up image storage for the website and found a way to upload images using a form.
- Ashrita plans to have the PHP thing set up by Friday but needs help with SSHing into the website.
- The team plans to meet on Friday in person at the library to discuss database structure and other project details.
