The team discussed the end of the sprint, planned for editing and deleting listings, explored options for an email verification API and showing prices of similar listings, and considered implementing functionality for saved listings and messaging.

- The team needs to schedule a meeting to discuss the end of the sprint.
- They are considering holding the meeting during class or on Friday.
- They plan to work on editing and deleting parts for the listings in the next sprint.
- They are exploring options for an email verification API and potentially adding a feature to show prices of similar listings.

There is a discussion about implementing functionality for saved listings and messaging, but it may be postponed.
